- Tryout / Troubleshooting
- Launch Support Teams

Plastics

- Journeymen Mold Makers
- Tryout / Troubleshooting
- Launch Support Teams

Project Management and Consulting

- Professional Services to Manage Tool Build
- Professional On-Site Consulting

FIXTURE MANUFACTURING

We Design and Build the Following Types:

- Inspection gages
- Attribute gages
- Go / No-Go gages
- Welding fixtures
- Checking fixtures
- Coordinate Measuring Machine (CMM) inspection fixtures

Design and construction of your inspection gage. Welding fixture or assembly fixture will be based on:

- Defining critical features that need to be checked
- Applying geometric tolerances and datums
- Simulating how the part is being used and held in assembly
- Providing instructions & procedures for using the gage or fixture
- Labeling of components
- Certifying critical features of the gage with our ISO 17025 / A2LA certified third party lab

We're ready to create your custom inspection gage checking fixture.

"We had a die crash and needed help right away. Die Tech Services really pulled us out of a bind. Thank you."

-Plant Manager, ACEMCO

Experience includes:

- Class "A" Outer Body Panels
- All Supporting Frame Members
